NASA-TLX Instructions

We are not only interested in collecting your game demonstrations but also the experiences you had during game tasks. Right now, we are going to describe the technique that will be used to examine your experiences. In the most general sense, we are examining the "workload" you experienced. After performing all of the tasks, you should see a page of rating scales. You will evaluate the tasks by clicking on each of the six scales at the point which matches your experience. Each line has two endpoint descriptors that describe the scale. Please consider your responses carefully in distinguishing among the different task conditions.

Block 2

Please Enter Your Full Name:

Questions

How mentally demanding was each task?

Very Low

Average

Very High

Not
Applicable

Lunar Lander -
Watch

☐

Lunar Lander - Play
